

Resubmitting your manuscript:

If you wish to take up the Editor's offer to resubmit your manuscript, revise your manuscript using a word processing program and save it on your computer. Prepare a document giving a detailed account of the changes you have made in response to the referees' comments.

When you are ready to resubmit your manuscript, please log into our Manuscript Central site, <http://mc.manuscriptcentral.com/diabetologia> and enter your 'Corresponding Author Centre'.

Click on 'Manuscripts with Decisions' or Manuscripts Awaiting Resubmission' queues to view the rejected manuscript, then click on the link 'create a resubmission' in the 'Action' column (see below).

The screenshot shows the 'Corresponding Author Dashboard' with a navigation bar at the top containing 'Home', 'Author', and 'Review' tabs. Below the navigation bar, the 'Corresponding Author Dashboard' sidebar lists several options: '1 Manuscripts with Decisions', '1 Manuscripts I Have Co-Authored', '1 Manuscripts Awaiting Resubmission', 'Start New Submission', 'Legacy Instructions', and '5 Most Recent E-mails'. The main content area is titled 'Manuscripts with Decisions' and contains a table with columns: ACTION, STATUS, ID, TITLE, SUBMITTED, and DECISIONED. The first row in the table shows a 'create a resubmission' link in the ACTION column, which is highlighted by a red arrow. The STATUS column for this row shows 'EO: Wall, Shelagh' and a 'Reject with Invitation to Resubmit' link. The ID column shows 'Diab-' and the TITLE column shows a redacted title. The SUBMITTED and DECISIONED columns are also redacted. Below the table, there is a 'view decision letter' link.

A confirmation window will appear, asking you if you are sure you want to create a new resubmission record. If you click **Cancel**, the action will be aborted. If you click **OK**, a new record will be created and given a new manuscript ID number, separate from the original one. The option to create a resubmission will be taken away and replaced with an indication that a resubmission exists along with the manuscript number of the resubmitted manuscript. Follow the onscreen instructions to resubmit your manuscript.

If you have any problems or queries, please contact the Editorial Office (diabetologia-j@bristol.ac.uk; tel +44(0) 117 414 7886)
